**Saint Pete MRI brings Sapheneia Dose Reduction Technology to the Greater Tampa / St. Petersburg Metropolitan Area**

**ST. PETERSBURG** – CT radiation dose is a concern shared by clinicians, patients and medical imaging providers across the nation. Saint Pete MRI is leading the charge to lower dose in its outpatient imaging center in the greater Tampa / St. Petersburg metropolitan area. Following a national search for the best CT solution, Saint Pete MRI chose the Sapheneia, Clarity CT Solution to be installed on their Phillips MX8000 16-Slice CT Scanner. The Sapheneia Solution provides image optimization which enables the lowest radiation dose, while maintaining the highest diagnostic image quality.

Kim Mahoney, CEO of Saint Pete MRI stated, "Patient safety is our number one priority and the addition of the Sapheneia software will help us to continue to provide our customers with the highest quality and safest medical imaging in the marketplace.

**ABOUT SAINT PETE MRI**

Saint Pete MRI has been providing quality patient care through state of the art diagnostic imaging in the Tampa Bay area for over 16 years. We are committed to providing high quality diagnostic imaging services to patients and referring physicians and will provide the solution to meet your requirements.
